SERMON DISCUSSION QUESTIONS

- If you could go back in time and have a conversation with your younger self, what are some things you would tell yourself? What advise would you give?
- How much have you come to grips with the fact that you will die? How does thinking about death cause us to truly live our life?
- Have you ever considered being judged for not enjoying the good God has placed in your life? What is one thing you can rejoice over today?
- What does it mean to “remember your Creator”? How can we practically do this?
- These commands become all the more clear in Jesus Christ. Why should we rejoice and remember all the more than the Preacher?
